ABOUT ME

UI/UX designer trained at Université Laval, I design experiences centered on user needs, from research to wireframing and prototyping, all the way to presenting results. My years in customer service taught me to listen, observe, and quickly spot what frustrates people, a reflex I apply without even realizing it in other areas of my life, including design.

EXPERIENCE

2026 - **UX Consultant - Radio-Canada**

2026 - Quebec, Canada

- Conducted 10 user interviews to identify pain points with the mobile app and the digital transition among potential users.
- Designed wireframes and high-fidelity prototypes in Figma to support strategic recommendations.
- Facilitated usability tests that validated design decisions and improved key user flows.

2025 - **Server - Hono Izakaya / Hono Ramen**

Quebec, Canada

2023 - **Server - Microbrasserie Alpenstock**

2024 - Quebec, Canada

EDUCATION

2025 - **M.A. Interaction Design**

2026 - Université Laval - Quebec, Canada

2022 - **B.A. Graphic Design**

2025 - Université Laval - Quebec, Canada

2019 - **D.E.C. Humans Sciences**

2021 - Cégep Limoilou - Quebec, Canada
